

ENEL700 Tutorial 11

1. What are the seven layers in OSI model? Briefly discuss the functions of each layer?
2. In TCP/IP network model, how can we only have five layers?
3. Discuss how network mask is used to find the network portion of an IP address.
4. Given a IP address 172.156.62.23/28, find out its network address.
